## PREDGOVOR

Agencija za statistiku Bosne i Hercegovine u kontinuitetu objavljuje publikaciju "Žene i muškarci u BiH", koja obuhvata podatke iz različitih statističkih i drugih oblasti razvrstane po spolu. Podaci daju kratak prikaz položaja žena i muškaraca u bosanskohercegovačkom društvu. Kroz ovu publikaciju, Agencija za statistiku BiH nastoji dati svojevrstan doprinos u postizanju jednakosti i ravnopravnosti među polovima.

Publikacija se sastoji od sljedećih poglavlja: stanovništvo, zdravstvo i mortalitet, obrazovanje, nauka i istraživanje, zaposlenost, socijalna zaštita, kriminalitet, politička vlast, Opći izbori 2014, javna uprava i nasilje nad ženama. U njoj su dati tabelarni i grafički prikazi podataka, a pored apsolutnih podataka prikazanih po spolu, data je i spolna raspodjela prikazana u postocima. Ova publikacija može poslužiti kao izvor informacija svim korisnicima zainteresovanim za položaj žena i muškaraca i za jednakost spolova u Bosni i Hercegovini.

Zakon o ravnopravnosti spolova u Bosni i Hercegovini donesen je 2003. godine. Zakon uređuje, promoviše i štiti jednakopravnost spolova i garantuje jednakе mogućnosti svim građanima, kako u javnoj, tako i u privatnoj sferi društva, te sprječava direktnu i indirektnu diskriminaciju zasnovanu na spolu.

U članku 18. ovog zakona stoji da svi statistički podaci i informacije koji se prikupljaju, evidentiraju i obrađuju u državnim tijelima na svim nivoima, javnim službama i ustanovama, državnim i privatnim preduzećima i ostalim subjektima, moraju biti iskazani po spolu.

Većina podataka prikazanih u ovoj publikaciji su rezultat istraživanja koje provodi Agencija za statistiku BiH, kao i postojeće statističke dokumentacije, te za njih nije naveden izvor podataka. Manji dio podataka je preuzet iz drugih državnih i entitetskih institucija, čije je ime navedeno ispod tabela i grafikona.

Nadamo se da će publikacija doprinijeti unaprijeđenju spolne ravnopravnosti i poboljšanju položaja žena u Bosni i Hercegovini.

## FOREWORD

Agency for Statistics of Bosnia and Herzegovina in continuity is publishing the bulletin "Women and Men in BiH", which includes data from a variety of statistical and other areas categorized by gender. The data give a brief presentation of the status of women and men in BiH society. Through this publication, the Agency for Statistics of BiH seeks to give a specific contribution to the achievement of equality between the sexes.

The bulletin consists of the following chapters: Population, Health and mortality, Education, Research and development, Employment, Social welfare, Crime, Political power, General elections 2014, Public administration, and Violence against women. Tabular and graphical presentations of data are given in the publication and in addition to absolute data disaggregated by sex, a percentage of the sex distribution is presented as well. This bulletin can serve as a source of information for all users interested in the status of women and men and gender equality in Bosnia and Herzegovina.

The Law on Gender Equality in Bosnia and Herzegovina was adopted in 2003. The Law regulates, promotes and protects gender equality and guarantees equal opportunities for all citizens, both in the public and private domain of society, and prevents direct and indirect discrimination based on gender.

Article 18 of the Law states that all statistical data and information collected, recorded and processed in state bodies at all levels, public services and institutions, public and private corporations and other entities, must be presented by gender.

Most data presented in this publication are the result of the surveys carried out by the Agency for Statistics of BiH, as well as existing statistical documentation, and for them there is no specified data source. A small portion of the data is taken from other state and entity institutions whose name is listed under the tables and graphs.

We hope that this publication will contribute to the improvement of gender equality and status of women in Bosnia and Herzegovina.

## OSNOVNI POJMOVI

**Gender (rod)** predstavlja društveno uslovljene razlike između žena i muškaraca koje su, za razliku od bioloških i fizioloških razlika, naučene, promjenjive i zavise od različitih faktora: kulture, religije, društvenog i političkog uređenja, ekonomske situacije, klase, starosne dobi, etničke pripadnosti itd.

**Gender statistika** je oblast koja prožima sva statistička područja. Cilj joj je identifikovanje, prikupljanje, diseminacija i analiza statističkih podataka razvrstanih po spolu, kako bi se shvatilo na koji način gender pitanja utiču na pojedince i društvo općenito.

Gender statistika bi trebala predstavljati dio institucionalnih mehanizama potrebnih da se razviju spolno ravnopravne politike. Ova statistika je bitna za monitoring i evaluaciju uspješnosti i efektivnosti razvoja spolno ravnopravnih politika.

**Jednakost spolova** podrazumjeva jednaka prava, odgovornosti i mogućnosti između žena i muškaraca. Jednakost ne promoviše identičnost žena i muškaraca, već uvažava njihovo pravo na različitost.

**Ravnopravnost spolova** podrazumjeva ravnopravnu vidljivost, sposobljenost i učešće spolova u svim vidovima javnog i privatnog života.

Ravnopravnost spolova je u suprotnosti sa neravnopravnosću spolova, a ne sa različitošću spolova.

**Gender analiza** je analiza koja je označena kao gender senzitivna, gender zasnovana ili gender svjesna i ona čini vidljivom neravnotežu između spolova u dатој situaciji, te analizira ovu neravnotežu u skladu sa važećim sociološkim (ili drugim) teorijama o odnosima među spolovima.

**Diskriminacija na osnovu spola** predstavlja privilegovanje, isključivanje ili ograničavanje zasnovano na spolu, zbog koga se pojedinim/cima otežava ili negira priznanje, uživanje ili ostvarivanje ljudskih prava i sloboda.

## BASIC CONCEPTS

**Gender** presents socially conditioned differences between women and men which are, in contrast to the biological and psychological differences, learned, changeable and dependent on different factors: culture, religion, social and political organization, economic situation, class, age, ethnicity, etc.

**Gender statistics** is a field that permeates all statistical areas. Its goal is identification, collection, dissemination, and analysis of statistical data disaggregated by sex, in order to understand how gender issues affect individuals and society in general. Gender statistics should represent part of the institutional mechanisms needed to develop gender equality policies. This statistics is important for monitoring and evaluation of the success and effectiveness of the development of gender-equal policies.

**Gender equity** means equal rights, responsibilities, and opportunities for women and men. Equity does not promote uniformity of women and men, but respects their right to be different.

**Gender equality** means an equal visibility, qualification, and participation of genders in all aspects of public and private life. Gender equality is an opposition to inequality between genders, rather than the differences between genders.

**Gender analysis** is an analysis that is designated as gender-sensitive, gender-based or gender-aware and it makes imbalance between the sexes apparent in a given situation and analyses this imbalance in accordance with the current sociological (or other) theories about relationships between the sexes.

**Gender based discrimination** means favouritism, exclusion or restriction on the grounds of gender because of which the recognition, exercising, or enjoyment of a person's human rights and freedoms are impeded or denied.

**Direktna spolna diskriminacija** je svjesan i promišljen čin (i njegovi rezultati) kojim se favorizuje jedan spol u odnosu na drugi, odnosno, osoba se tretira nepovoljnije u odnosu na drugu osobu, u istoj ili sličnoj situaciji, a na temelju spola.

**Indirektna spolna diskriminacija** proizilazi iz društvenih, ekonomskih, političkih, kulturoloških ili drugih aspekata koji stavaraju situaciju nejednakosti, odnosno kada prividno neutralna norma, kriterij ili praksa jednaka za sve dovede u nepovoljan položaj osobu jednog spola u poređenju sa osobama drugog spola.

**Gender stereotipi** proizilaze iz (često zastarjelih) prepostavki o ulogama, sposobnostima i osobinama muškaraca i žena. Oni mogu da uzrokuju materijalne ili psihološke kočnice, koje će ženama ili muškarcima da onemoguće izbor ili će ih onesposobiti da u potpunosti uživaju svoja prava.

**Gender mejnstrining** predstavlja ugradnju prioriteta i potreba žena i muškaraca u sve zakone, strategije, planove, programe i akcije društva, radi postizanja jednakosti i ravnopravnosti spolova, uzimajući u obzir posljedice koje će ove akcije imati na žene i muškarce. Ovaj termin je uveden u upotrebu donošenjem Pekinške deklaracije i platforme za akciju, na Četvrtoj svjetskoj konferenciji o ženama (Peking, 1995.) Temin nije preveden na domaći jezik, jer nije pronađena adekvatna riječ koja bi obuhvatila značenje i definiciju gender mejnstrininga.

**Direct gender discrimination** is a conscious and deliberate act (and its results) that favour one gender over the other, i.e. a person is treated less favourably than another person in the same or a similar situation, only based on gender.

**Indirect gender discrimination** arises from social, economic, political, cultural, or other aspects creating situation of inequality, i.e. when an apparently neutral provision, criterion, or practice equal for all leads a person to disadvantaged position compared to the persons of the other gender.

**Gender stereotypes** come from (often-outdated) assumptions about the roles, capabilities, and characteristics of men and women. They can cause material or psychological brakes, which will deny choices to women or men or will incapacitate them fully to enjoy their rights.

**Gender mainstreaming** represents incorporation of the priorities and needs of women and men in all laws, strategies, plans, programs, and actions of the society, in order to achieve gender equity and equality, taking into account the consequences that these actions will have on women and men. This term was introduced with adoption of the Beijing Declaration and Platform for Action at the Fourth World Conference on Women (Beijing, 1995). This term was not translated into the local language, because no adequate word that would encompass the meaning and definition of gender mainstreaming was found.

**Zakon o ravnopravnosti spolova u Bosni i Hercegovini** je usvojen u maju 2003. godine. Izmjene i dopune su usvojene 2009. godine, a 2010. godine usvojen je Zakon o ravnopravnosti spolova u Bosni i Hercegovini – prečišćeni tekst („Službeni glasnik BiH“, br. 32/10). Prema Opštim odredbama, ovim zakonom uređuje se, promoviše i štiti ravnopravnost spolova i garantuje jednake mogućnosti svim građanima, kako u javnoj, tako i u privatnoj sferi društva, te spriječava direktnu i indirektnu diskriminaciju prema spolu. Puna ravnopravnost spolova garantuje se u svim sferama društva, a naročito u oblasti obrazovanja, ekonomiji, zapošljavanju i radu, socijalnoj i zdravstvenoj zaštiti, sportu, kulturi, javnom životu i medijima, bez obzira na bračno i porodično stanje.

Diskriminacija po osnovu spola i spolne orijentacije je zabranjena.

*The Law on Gender Equality in Bosnia and Herzegovina was adopted in May 2003. Amendments to the Law were adopted in 2009, and in 2010 The Law on Gender Equality in Bosnia and Herzegovina – consolidated text („Official Gazette of Bosnia and Herzegovina“, no. 32/10) was adopted. According to the General Provisions, this law governs, promotes and protects gender equality and guarantees equal opportunities for all citizens in both public and private spheres of society, and prohibits direct and indirect discrimination on the grounds of gender. Full gender equality is guaranteed in all sectors of society, particularly in the fields of education, economy, employment, and labour, social and health care, sport, culture, public life and media, irrespective of marital or family status. Discrimination based on gender and sexual orientation is prohibited.*

**Rođeni i umrli:** prema zakonskim regulativama o evidenciji, rođenje i smrt se obavezno evidentiraju u matičnim knjigama u području u kojem je osoba rođena ili umrla, bez obzira na mjesto prebivališta osobe koja je rođena ili umrla.

**Births and deaths:** according to the legal regulations on registration, it is obligatory to register births and deaths in population registers in the area where they took place, irrespective of the residence of the persons.

### Živorođeni / Live births

### Umrli / Deaths

Živorođenim djetetom se smatra svako dijete koje prilikom rođenja diše i pokazuje druge znakove života (kucanje srca, pulsiranje pupčane vrpce, kretanje voljnijih mišića).

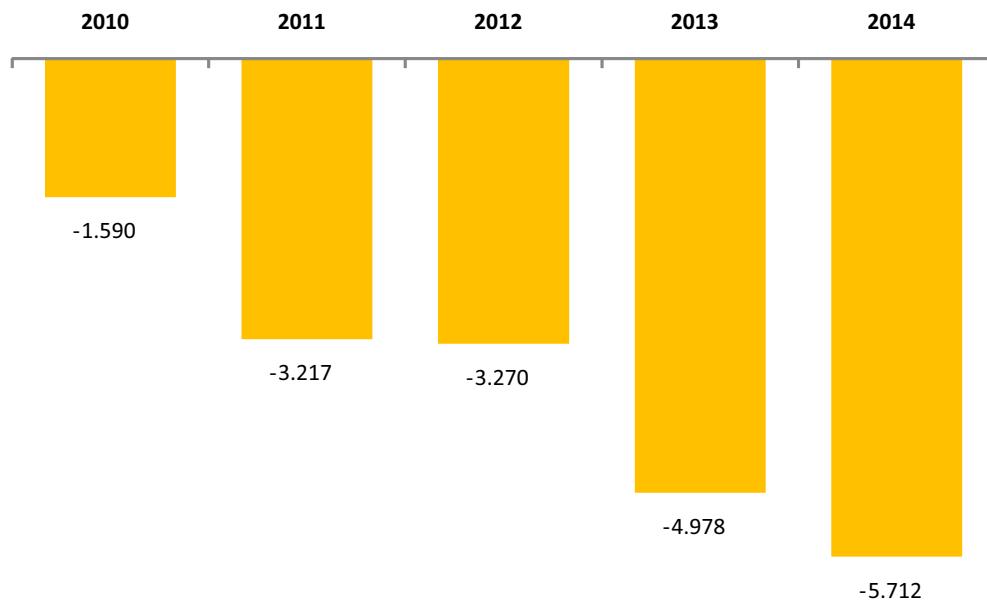

U BiH se svake godine rodi oko 3-4% više muške djece, a gotovo u istom tom procentu umire više muškaraca u odnosu na žene.

*Live birth is every child that breathes at birth or shows any other signs of life (beating of the heart, pulsation of the umbilical cord, definite movements of voluntary muscles).*

*Each year, about 3-4 % more boys are born in BiH, and there is almost the same percentage of men deaths compared to women.*

## Prirodni priraštaj stanovništva BiH

Natural increase of BiH population

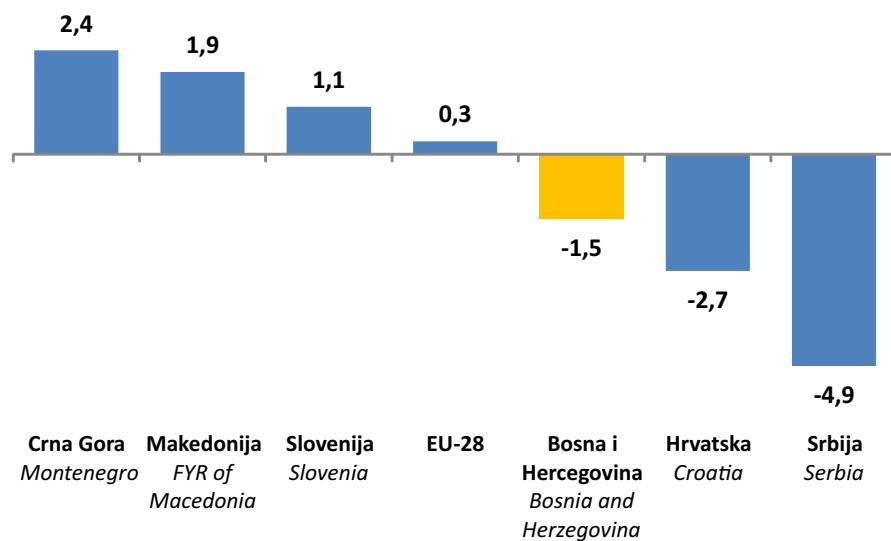

**Prirodni priraštaj** predstavlja razliku između broja rođenih i broja umrlih u godini posmatranja i može biti pozitivan i negativan. U prethodnih pet godina u BiH postoji trend negativnog prirodnog priraštaja, što znači da u referentnoj godini umre više osoba nego što ih se rodi.

**Natural population increase** is a difference between the number of live born and the number of dead persons in a given period and it can be positive and negative.

In the past five years in BiH there is a negative trend of natural population change, which means that in the reference year the number of deaths exceeds the number of births.

## Stopa ukupnog fertiliteta u BiH

**Stopa ukupnog fertiliteta** je broj živorođenih na jednu ženu u njenom reproduktivnom životu.

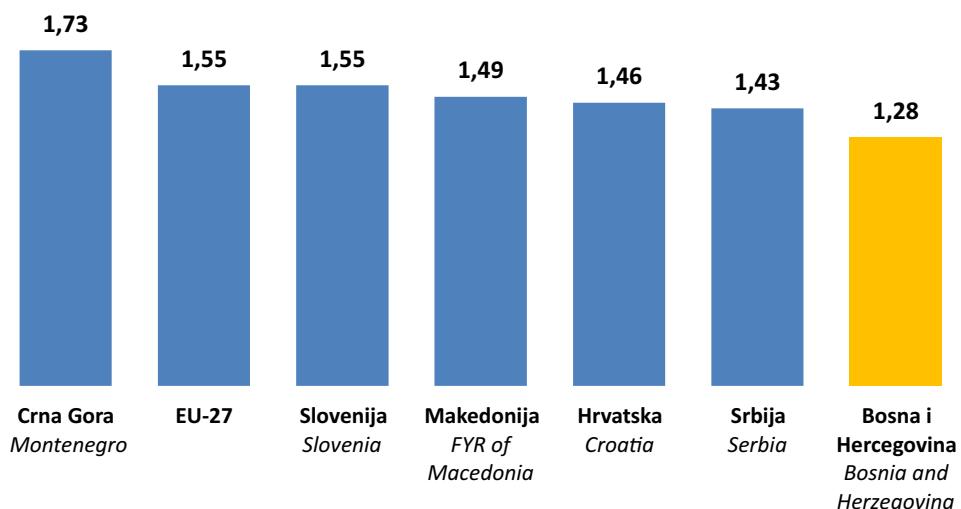

Stopa ukupnog fertiteta za BiH je urađena na osnovu procjenjenog broj stanovnika (3.84 miliona).

**Total fertility rate** represents the total number of live births by women of reproductive age.

Total fertility rate in BiH is based on estimated number of population (3.84 million).

**Anketa o radnoj snazi** je redovno istraživanje koje provodi Agencija za statistiku BiH. Anketa se provodi jednom godišnje, s ciljem prikupljanja podataka o osnovnim karakteristikama radno sposobnog stanovništva, na osnovu kojih se vrši procjena ukupne radne snage u zemlji. Anketom za 2014. godinu je obuhvaćeno 10.555 domaćinstava.

**Stopa aktivnosti** predstavlja odnos radne snage (ekonomski aktivno stanovništvo) i radno sposobnog stanovništva (sva lica stara 15 i više godina).

**Stopa zaposlenosti** predstavlja odnos zaposlenih i radno sposobnog stanovništva.

**Stopa nezaposlenosti** predstavlja odnos nezaposlenih i radne snage (ekonomski aktivno stanovništvo).

**Labour Force Survey** is a regular research conducted by the Agency for Statistics of BiH. The survey is conducted annually with the aim to gather data on the basic characteristics of the working age population, based on which the total labour force in the country is reviewed. The Survey 2014 covered 10.555 households.

**Activity rate** represents a ratio between labour force and working age population.

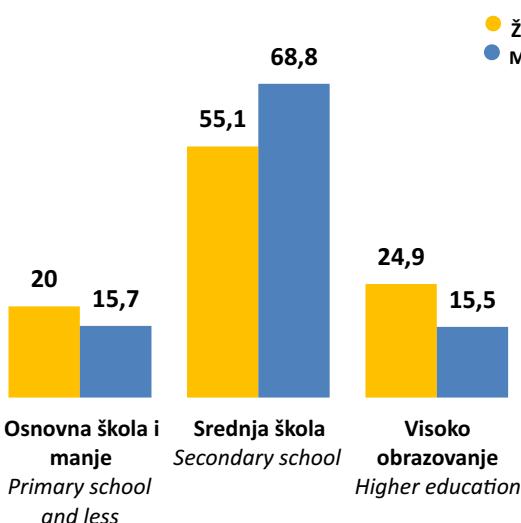

**Employment rate** represents a ratio between employed and working age population.

**Unemployment rate** represents a ratio between unemployed persons and labour force.

# NASILJE NAD ŽENAMA

## VIOLENCE AGAINST WOMEN

Agencija za ravnopravnost spolova BiH i entitetski gender centri su u saradnji sa statistickim institucijama, a uz podršku UNFPA i UN WOMEN 2013. godine proveli Studiju o rasprostranjenosti nasilja nad ženama u Bosni i Hercegovini. Osnovni cilj studije je bio istražiti rasprostranjenost i učestalost različitih oblika nasilja (psihološko, fizičko, seksualno i ekonomsko nasilje) nad ženama u porodici, ali i široj zajednici.

Istraživanje je provedeno na reprezentativnom uzorku od 3.300 žena starijih od 18. godina, na teritoriji Federacije BiH i Republike Srpske. Brčko distrikt nije uključen.

*Gender Equality Agency of BiH and Entity Gender Centers, in cooperation with statistical institutions, with the support of UNFPA and UN WOMEN in 2013 conducted a Study on a prevalence of violence against women in Bosnia and Herzegovina. The main objective of this study was to investigate the prevalence and frequency of various forms of violence (psychological, physical, sexual and economic violence) against women in the family and the wider community. The study was conducted on a representative sample of 3.300 women aged 18 or over, on the territory of the Federation BiH and Republika Srpska. District Brčko is not included.*

- **Žene koje su od svoje 15. godine iskusile bilo koji oblik nasilja / Women who have experienced any form of violence after the age of 15**
- **Žene koje nisu prijavile nikakvo iskustvo nasilja / Women who have not reported any experienced violence**

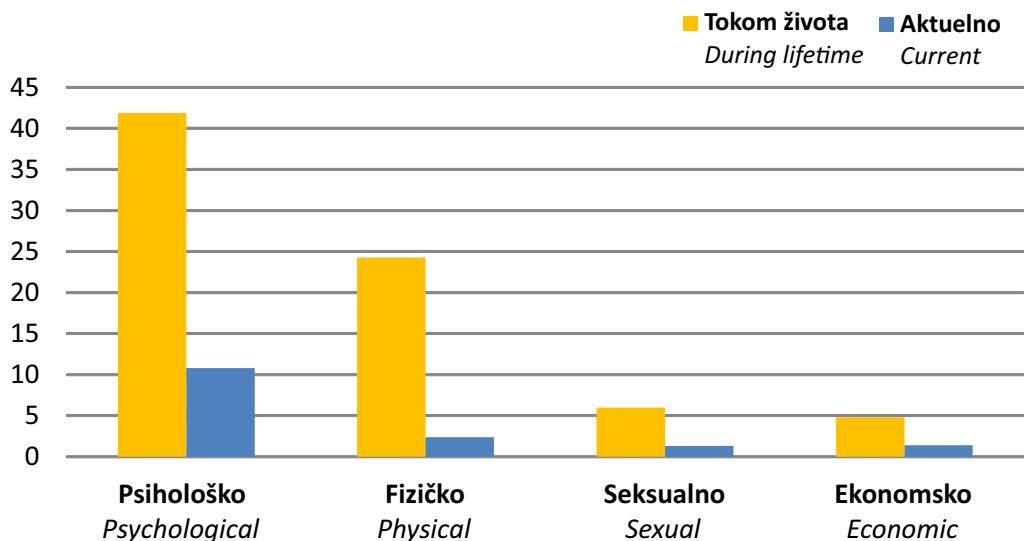

Stopa prevalencije ukupnog nasilja tokom poslijednjih 12 mjeseci koji su prethodili istraživanju je znatno manja u odnosu na prevalenciju ukupnog nasilja nad ženama i iznosi 11.9%.

## Stopi prevalence različitih oblika nasilja nad ženama Prevalence rates of various types of violence against women

Razlika između stopa aktuelnog i nasilja doživljenog tokom života može se pripisati velikom broju sudjelovanja starijih žena u istraživanju, pa su zbog toga stope prevalence veće na nivou cijelog života nego što su za posljednjih godinu dana, ali i činjenici da su žene spremnije priznati iskustva iz prošlosti nego ona sadašnja.

*The difference between the current rate and violence experienced during the lifetime can be attributed to the large number of older women participating in the study, and therefore higher prevalence rates at the level of the whole life than for the past year, but also the fact that women are more willing to acknowledge past experience than the present.*

**Stope prevalencije ukupnog partnerskog nasilja prema obrazovanju žena i obrazovanju partnera\***  
*Prevalence rate of partner violence by education of women and education of the partner\**

**Napomena:** Podaci se odnose na žene koje su u vrijeme istraživanja imale partnera (partner sa kojim su u formalnom braku, partner sa kojim žive nevjencano ili partner sa kojim održavaju emotivnu vezu, ali ne žive zajedno).

Takve žene čine 72.6% ukupnog uzorka.

Podaci Studije o rasprostranjenosti nasilja nad ženama u BiH pokazuju da stope prevalencije partnerskog nasilja opadaju sa višim obrazovnim nivoom žena, ali i partnera.

**Note:** Data refer to women who had a partner in the time of the survey (partner with whom they are married, have a common-law partnership, with whom they live or unmarried partner with whom they maintain an emotional relationship, but not living together). Such women represent 72.6% of the total sample.

Study data on the prevalence of violence against women in BiH have shown that the prevalence rates of partner violence decreased with higher educational level of women and partners also.
