BOSNIA AND HERZEGOVINA'S SURFACE AREA

Bosnia and Herzegovina (BiH)

is constituted by:

- the Federation of Bosnia and Herzegovina (**FBiH**),
- the Republika Srpska (**RS**), and the separate administrative Brčko District (**BD**).

The capital is Sarajevo.

The Federation of Bosnia and Herzegovina consists of 10 cantons, divided into 79 municipalities. The Republika Srpska has 62 municipalities and Brčko District has 1

Temperature and precipitations

in Sarajevo: the average annual temperature is 9.7 °C; in winter the average temperature is 0.4 °C, in summer is 18.6 °C.

In July 2000 the absolute maximum temperature was recorded (38.2 °C); in January 1954 the absolute minimum temperature (-21.8 °C).

The average annual precipitation in Sarajevo is 936 l/m²

BOSNIA AND HERZEGOVINA'S NUMBERS

Basic territorial and demographic information

Form of government	State	Resident population	3,447,156
Capital city	Sarajevo	Population density (inhab./km ²)	67.3
Latitude North	45°16'30"	Number of households	1,054,613
Longitude East	19°37'41"	Households' average members	3.3
Surface area (km ²)	51,209.2	Official languages	Bosnian, Serbian, Croatian
Coastline (km)	21.2	Alphabets	Latin, Cyrillic
Highest mountain - Maglić (m)	2,386	Official currency	Convertible mark (KM)
Longest river - Drina (km)	346	Border countries	Croatia, Serbia, Montenegro
Main lake - Buško (km ²)	55.8	Climate	Continental and Mediterranean

POPULATION

Resident population: are considered residents all those who are usual residents in one place, that is, those having permanent residence there, irrespective of their presence or temporary absence at the census moment.

People employed by international employers or self-employed in the territory of BiH or abroad and members of their families will be registered as permanent residents of their usual resident place.

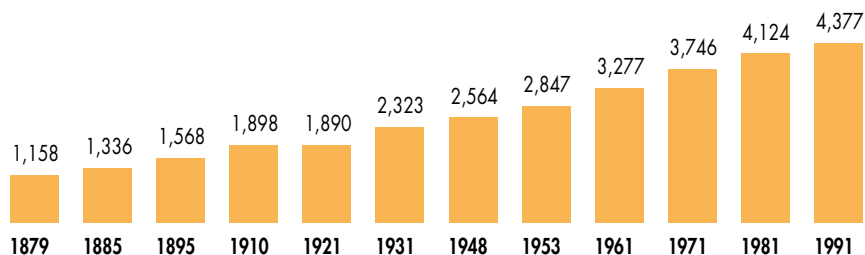

In the Population Census in 1961 and 1971 as resident population persons were registered where they worked at the Census moment, while in 1981 and 1991 Census these persons were enumerated as resident population in the places where their families lived

AVERAGE DURATION OF LIFE AND AVERAGE AGE OF POPULATION

POPULATION BY AGE CLASS AND SEX

2007, % volumes

NATURAL CHANGE OF POPULATION

1996-2006

	Live births		Deaths		Natural change
	Total	Males	Total	Males	
1996	46,594	24,398	25,152	13,952	21,442
1998	45,007	23,425	28,679	15,303	16,328
2000	39,563	20,407	30,482	16,058	9,081
2002	35,587	18,297	30,155	15,647	5,432
2004	35,151	18,133	32,616	16,780	2,535
2006	34,033	17,547	33,221	17,308	812

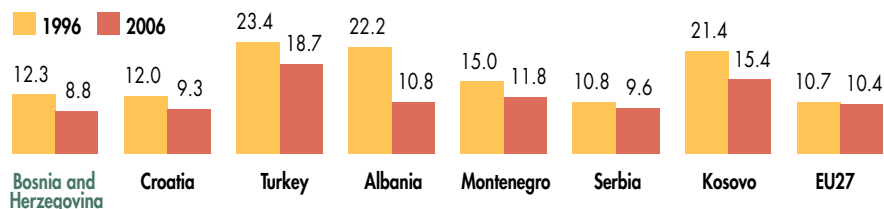

Natural change: is the difference (surplus or deficit) between the number of births and the number of deaths in a given period

Births and deaths: according to legal regulations on registration, events of births and deaths are obligatorily registered in population registers of the area where they took place, irrespective of the residence of persons the events refer to

Total fertility rate (TFR): ratio between the number of live born children and the number of women in the same year, per 1,000

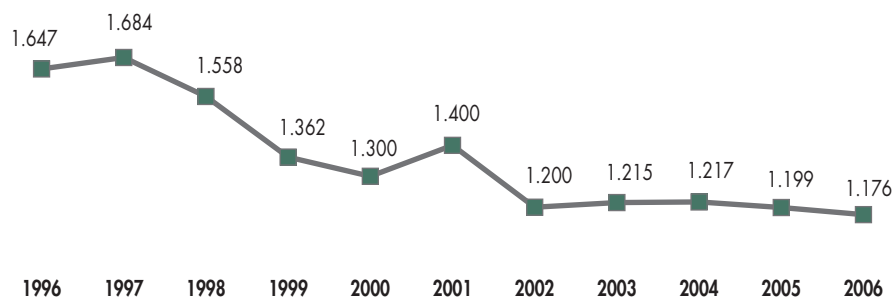

BIRTHS IN SOME BALKAN COUNTRIES AND IN EU27

1996-2006, per 1,000 inhabitants

TOTAL FERTILITY RATE

1996-2006

POPULATION

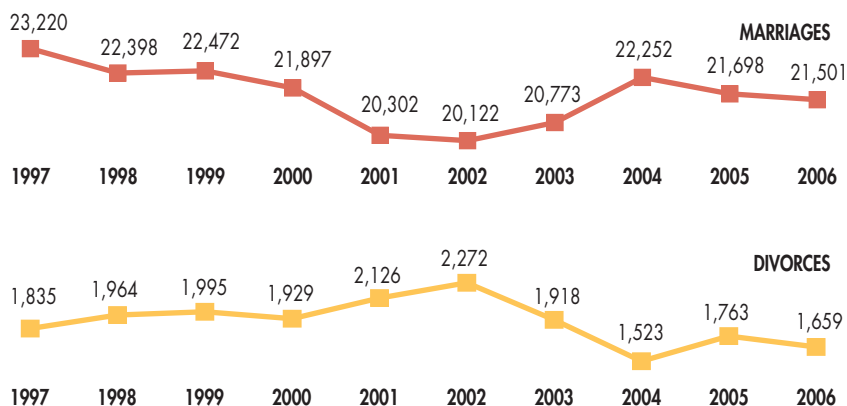

Marriages and divorces: data on marriages are taken from the registration offices, those on divorces from municipal courts. According to legal regulations on registration, events of marriages are obligatorily registered in population registers of the area where they took place, irrespective of the residence of persons the events refer to

Household: any group of people living together in the same dwelling who share their resources. A household is also considered every person who lives alone or with other persons but does not share resources with them

DEATHS

1996-2006

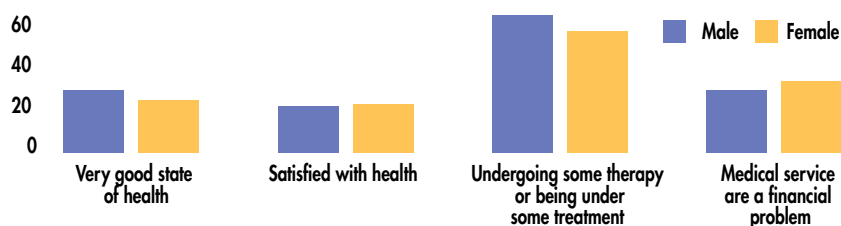

DEATHS BY CAUSES

2006

POPULATION HEALTH CONDITION BY SEX

2007, % values

Child mortality (under 5 years of age) in BiH: in 2005 it reaches 18 deaths per 1,000 live births while the EU average estimate is 4.6. Related to this, vaccinations records show that 87% of the population are covered by basic vaccinations, which has led to a steady decline of tuberculosis, meningitis, measles and other infections

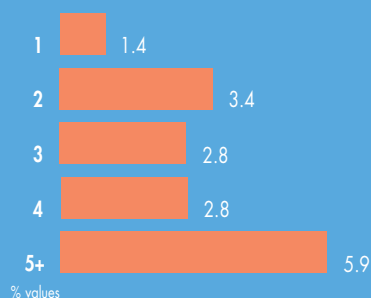

LIVING STANDARDS

Average monthly expenditure: the ratio of the total amount spent by the households and the total number of households

Reference person: the head of household which is identified as such, regardless of the reason

Self-consumption: the goods produced and consumed by the household itself

SELF-CONSUMPTION OF FOOD AND BEVERAGES BY HOUSEHOLD SIZE IN 2007

2007, % values

* the estimation must be considered with caution given the small sample size

Vehicles ownership: in 2007 more than half of the households (51.9%) owns a car in Bosnia and Herzegovina. At territorial level this share increases at 53.3 in the Federation of Bosnia and Herzegovina, reaches 52.2% in the Brčko District and decreases at 49.6% in the Republika Srpska. The ownership of bicycles is also widespread: 24.1% at national level. Such percentage is 28.3% in the Republika Srpska, 27.8% in the Brčko District and 21.6% in the Federation of Bosnia and Herzegovina. Motorcycles and motorbikes are owned by less than 3% of households in the whole country

GRADUATE STUDENTS

2003-2007

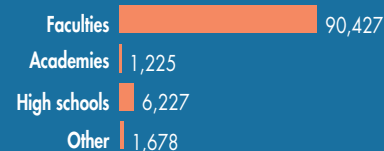

Secondary school: provides general and vocational training and skills needed for other after school programmes and activities. It includes gymnasiums, technical science schools, art schools, schools for students with special needs and schools for adults

High school: institutions providing advanced teaching and education

University: educational-scientific institution and/or educational-art institution providing higher professional education and post-graduate studies to obtain a M.A. or Ph.D. Degree

STUDENTS OF HIGHER EDUCATION

SCHOOL YEAR 2006/2007

CULTURE

Library: is an organized collection of printed, written or otherwise reproduced materials and other documents, including graphical and audio-visual material, available to the public

Radio and television station: enterprise or unit within the other enterprise that broadcast programme intended for public through their transmitters

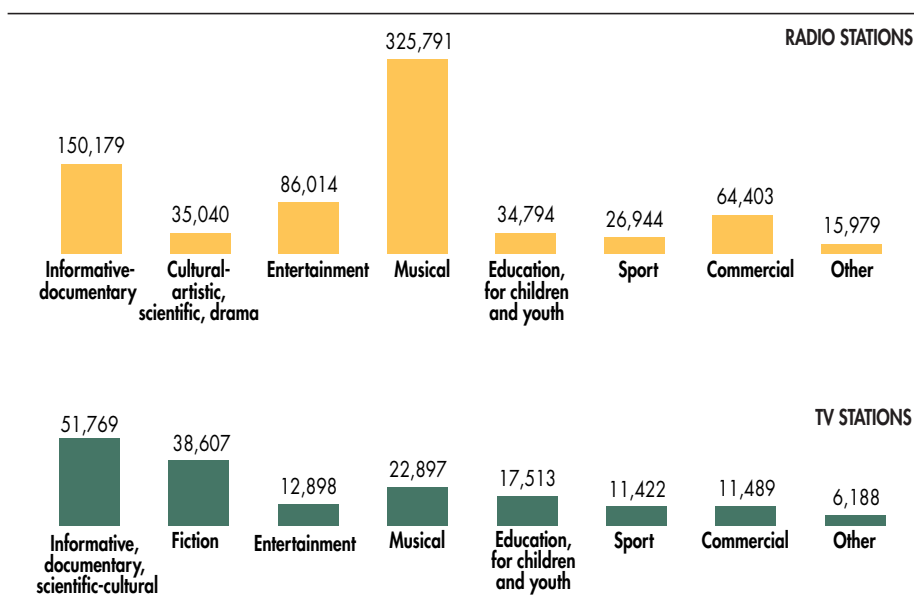

In 2006 1,406 persons work in radio stations: more than half are journalists and speakers. In the same year the workers in TV stations are 1,722, of which less than one third belongs to the technical staff, around 14% to the art staff while 40% are journalists

Working age population: includes all persons aged 15 years and over. It is divided into two basic categories: labour force (economically active) and economically inactive population

Labour force: all employed and unemployed persons

Inactive: all persons aged 15 years and over who:

- were not employed during the reference week
- did not take any measures to look for employment in the four previous weeks
- were not ready to start work during the two subsequent weeks should they be offered employment

LABOUR MARKET

Employed: all individuals aged 15 years and over which:

- carried out at least 1 hour of paid work in the reference week
- did not work in the reference week, but had a job to return to

Unemployed: all individuals aged 15 years and over which:

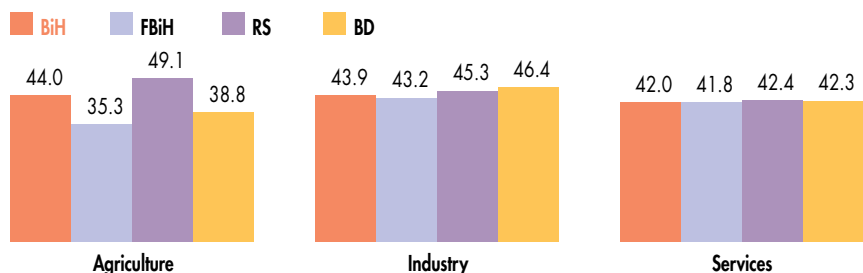

- did not engage in any activities in the reference period for which they received a salary or fee
- spent 4 weeks actively looking for employment or found a job and were about to start work in the near future
- might start work during 2 weeks following the reference week should they be offered employment

Activity rate: ratio of the labour force to the correspondent reference population, i.e. the activity rate aged 15-64 is defined as a proportion of persons aged between 15 and 64 in the labour force in relation to the total population of the same age

Employment rate: ratio of employed persons to the correspondent reference population. It usually refers to persons in employment aged between 15 and 64 in relation to the total population of the same age

Unemployment rate: ratio of unemployed to labour force. Youth unemployment and long-term unemployment rates are also calculated: the first refers to persons aged between 15 and 24, the second is defined in terms of the period spent searching for a job, generally more than 12 months

EMPLOYMENT RATES* IN 2006

*population aged 15-74

ECONOMY

Gross Domestic Product (GDP):

final result of the productive activities of resident units. The GDP at market prices is the sum of the gross value added of all resident producers at basic prices, plus taxes less subsidies on products and services

Value added: difference between total production and intermediate consumption used in production. At basic prices it excludes taxes on products but includes subsidies on products

Romania	24.7	25.0	18.8	12.4
EU27	61.9	60.3	62.2	61.3

GENERAL GOVERNMENT NET BORROWING/LENDING

2003 and 2006, % of GDP

GDP per capita: is calculated by dividing the GDP by the total population

Government debt: is the consolidated stock of gross debt at nominal value at the end of the year; in other words, it is the accumulated debt of a territory over the years

General Government net borrowing/lending: income statement balance showing the total expenditure and receipts of the General Government. It is the sum of current balance plus capital account balance

PRICES

Consumer price index (CPI):

measures changes over time of a basket of products representative of all the products meant for the final consumption by households and purchasable in the market through monetary transactions.

In 2007 the basket consisted of 646 elementary products, whose prices are collected in 12 localities (5 towns in the Federation of Bosnia and Herzegovina, 6 towns in the Republika Srpska and 1 in the Brčko District). In 2007, almost two thirds of the CPI annual average increase (1.5% in total) is due to the item of expenditure "Food and non-alcoholic beverages", followed by "Housing, water, electricity, gas and other fuels", whose contribution was around 30%

Comparative price level (PLIs):

these indices refer to the total value of the individual consumption expenditures by households, non-profit institutions serving households and general government. PLIs provide a comparison of the countries' price level with respect to the EU average: if a price level index is higher than 100, the country concerned is relatively more expensive than the EU average and vice versa

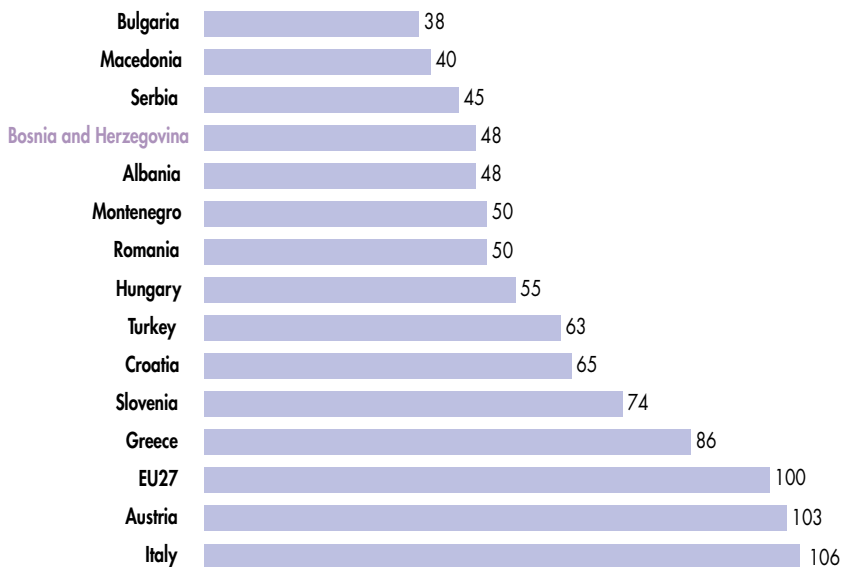

CONSUMER PRICE INDEX BY ITEM OF EXPENDITURE

2007, trend % changes

	BiH	FBiH	RS	BD

Industrial production index:

measures the trend changes in the volume of output over a given reference period. It includes production in mining, manufacturing and public utilities (electricity, gas and water), excluding construction

Contract processing: is a type of service that takes place when a principal business subject supplies material free of charge to another business subject (the contractor) that produces or processes industrial products
