**Neto težina zaklane stoke i peradi u klaonicama u tonama
oktobar 2020. i 2021. godine**
*Net weight of livestock and poultry slaughtered in abattoirs in tons
October 2020 and 2021*

Metodološka objašnjenja

Podaci o klanju stoke i peradi dobiveni su agregiranjem podataka na osnovu uporedivih mjesečnih statističkih istraživanja koja provode entitetski zavodi za statistiku i podružnica Distrikt Brčko.

Poslovni subjekti i dijelovi poslovnih subjekata dostavljaju podatke na osnovu knjigovodstvene evidencije, dok se za obrtničke klaonice podaci dobivaju od nadležnih općinskih službi (veterinarsko – inspeksijskih) na osnovu raspoložive evidencije.

Definicije

Bruto težina jeste težina stoke i peradi prije klanja.

Neto težina jeste težina očišćenog trupa, zaklane stoke i peradi bez kože, krvi, glave (osim kod prasadi i peradi), utrobe, prednjih nogu do koljena i stražnjih nogu do skočnog zgloba.

Randman zaklane stoke i peradi predstavlja postotni odnos težine zaklane stoke i peradi (neto težine) i težine žive stoke i peradi (bruto težine), a iskazuje se u postocima s jednom decimalom.

Notes on methodology

The data on slaughter of livestock and poultry are result of aggregation of comparable the data from monthly statistical surveys conducted Entity institutes for statistics and by the Bureau in Brčko District.

Data on legal entities and parts of legal entities are submitting data based on book-keeping, whereas for entrepreneurs abattoirs data are given from approved municipal (veterinarian – inspection) department at the basis of available evidence.

Definition

Gross weight is the weight of livestock and poultry before slaughtering.

Net weight is the weight of dressed carcass of slaughtered animals without skin and blood, eviscerated and beheaded (excluding piglets and poultry), and after removal of fore ends and hind legs with knuckle.

Coefficient of utilisation of slaughtered livestock and poultry is a percentage ratio of the weight of the slaughtered cattle and poultry (net weight) and the weight of livestock and live poultry (gross weight), and it is presented in percentage calculated to one decimal place.
