⁴Od akademske 2022/2023. godine podaci o nastavnicima i suradnicima prikupljaju se za zaposlene na osnovu ugovora o radu i angažirane na osnovu svih drugih ugovora. Također, podaci o nastavnicima i suradnicima prikupljaju se prema nastavnoj normi na osnovu koje se računa ekvivalent pune zaposlenosti. Nastavnici i suradnici koji rade sa punom normom tijekom cijele akademske godine odgovaraju jedinici ekvivalenta pune zaposlenosti, dok je za nastavnike i suradnike koji rade kraće od pune nastavne norme ekvivalent potrebno izračunati.
Since the academic year 2022/2023, the data on teachers and assistants are collected for persons employed based on employment contracts and for those hired based on all other contracts. In addition, the data on teachers and assistants are collected according to the teaching time, based on which the full-time equivalent is calculated. Teachers and assistants who work full-time during the entire academic year correspond to the unit of full-time equivalent, while for teachers and associates who work less than the full teaching time the equivalent must be calculated.

⁵ Budući da nastavnici i suradnici mogu da predaju na dvije ili više visokoškolskih ustanova, ukupan broj prikazanih nastavnika i suradnika ne odgovara stvarnom broju fizičkih osoba.
 Considering that teachers and assistants may teach at two or more higher education institutions, total number of teaching staff does not correspond to the actual number of natural persons.
